- Interesting Info for C_ & 2 Enthusiasts - Online - Corvette News Magazine, 1958 to 1966

Corvette owners could get it and if you didn't own a Corvette back then, or know anybody that had one you couldn't read it. I only bought used corvettes. Corvette News is an exciting publication, filled with great looking cars, events, racing, and technical features encouraging participation. I am looking thru them for GS articles. This post has most Corvette News publications from 1958 through 1966. The Acrobat files (.pdf) that are available on the GM Heritage Center site are rather large, so I down sampled them to a manageable size for on screen reading.
